## THE WEATHER.

### LOCAL BULLETIN.

LOS ANGELES SIGNAL OFFICE, Dec. 17.--At 4:57 to-day the thermometers registered 49; at 12:57 p.m., 47, and at 7:57 p.m., 47. Barometer for corresponding periods, 30.08, 30.11, 30.12. Maximum temperature, 70.0; minimum, 44.0. Weather at 7:57 p.m., clear.

## The Times.

### Office-Temple, Main and New High.

M. D. BORUCK comes out in the Spirit of the Times in support of the candidacy of George Hearst for the Senate. Thus Marcus, the boss editor, blossoms out as a Democrat for revenue only.

If the Democratic managers of Los Angeles, who are opposed to the appointment and confirmation of J. Marion Brooks as United States District Attorney, do not see it that he is thrown out of the Senate by the heels, we propose to cut their acquaintance to chop it clean off with a large cleaver.

THE Santa Rosa Democrat tells a true story of a little bootblack who laid up \$49 by "shining" in Frisco, and went to Mendocino county to get some land. This was seven years ago, and now he is a partner in an 800-acre tract of timber and is worth \$30,000. Let the little "shiners" take heart. One of them may be President yet.

YOUNG Mr. Snodgrass, of Cynthia, Ky., committed suicide the other day, and left a note for his aged and respectable parents requesting them to be good for his sake. The solicitude of the young man for the moral welfare of his father and mother at the time when he was about to commit self-murder, is referred to by the local papers as "Sin-gularly Pathetic."

THE LOS ANGELES TIMES frankly admits that there is very little uncultivated land in that county, except barren mountain sides. We are glad that the resources of Los Angeles are so fully developed, and we hope that the Los Angeles press will now find time to say something of the resources and advantages of other sections of the State, which it has hitherto overlooked--say the Sacramento Valley--(Oakland Enquirer).

Thanks, awfully! We will now take up the proper work of the up-country papers, and do it up in ship-shape.

THE general passenger agents of the Atchison, Topeka and Santa Fe Railroad Company have been in session in Topeka, called together by W. F. White, general passenger agent. The purpose of this meeting has been to arrange for the passenger business of the coming year; to provide for immigration, and to arrange business and transfers with other lines and to map out the campaign for 1887, which will bring the greatest business ever known.

THE daughter of Jackson, the man who murdered Col. Ellsworth at Alexandria, having been provided for, as noted in THE TIMES Washington correspondence, the administration is called upon to look after other favorites of the winning side in the last campaign. One Mr. Dabney, who is said to have been a very efficient deadline guard at Andersonville, has been appointed to the office of pension examiner in Kansas. There is a kick, however, and the doctor may have to give the wall, for a few years more, to Union soldiers.

THE cheerful report that Attorney General Garland intended to resign to bury himself in a wilderness is spoiled by the latest announcement, which is that he will be a candidate for the Senate. This means a fight. We know of one Arkansas Democratic statesman, now an angel and with the angels standing in the Angelic City, who, if Garland projects his Pan-Electric mug into the Legislature of his State, will go all the way back to Little Rock to combat, and if possible, to lay him low. When he starts THE TIMES proposes to see him off, and we now proffer our services to carry his grip-sack to the railway station loaded (the grip-sack, not the station) with a stuffed club and a battering-ram.

Determined to be a State. ST. PAUL (Minn.), Dec. 17.--A Huron (Dak.) special to the Pioneer Press says: "Owing to lack of a quorum last night, the Legislature of South Dakota did not pass the bill ordering an election on the question of putting a State government into operation, though the constitutional convention appointed a committee which drafted a bill for this purpose. The leaders of the movement say the Legislature will be called to gether soon to act thereon."

A Race for \$50,000. LOUISVILLE (Ky.), Dec. 17.--The Louisville Jockey Club have completed arrangements whereby in the spring of 1889 there will be a race at its course of a race of a mile and a quarter for a stake of \$50,000, perhaps the richest ever run in America.

An Old Miner Killed. PLYMOUTH, Dec. 17.--Thomas Griffith, an old pioneer and miner of this county, through a mistake in the signal shaft at this place yesterday, and died this morning from his injuries.

Arrested for Shooting a Boy. HALLOWELL, Dec. 17.--Frank Woods was arrested and lodged in jail at this place today for the shooting of the Patton boy, on Sunday last.

Humboldt's Bad Rap Proves a Scare to the Navy. A Fire-Bug Makes a Startling Confession--Other News--Other Pacific Coast Gleanings.

By Telegraph to The Times.

SAN FRANCISCO, Dec. 17.--[By the Western Associated Press.] Strikers on the Geary and Sutter street railroads, while parading this afternoon, attacked several cars on the Polk-street branch of the Sutter-street road. Three ladies were wounded by rocks. Several of the conductors and drivers were hit, and a number of car windows broken. On Larkin street, near Eddy, a number of men ran up behind one of the new conductors and knocked him senseless with a blow on the head. John T. Middlekoff, a gripman on the Larkin-street branch, was assaulted and badly beaten by a number of men. It is feared that he will lose his left eye, it having been struck by a rock. The officials of the road have asked the Chief of Police for better protection, and the force of 100 officers, who have been on duty day and night since the commencement of the strike, will be increased.

THE KILLING OF YOUNG HEINZE. The preliminary examination on a charge of murder of James Kelsey and James McCord, superintendents of the Sutter-street Railroad, began in the Police Court today. At the conclusion of the day's proceedings, the judge made an order that Kelsey be released from custody on filing a bond in the sum of \$40,000. The prosecution asked that McCord's bail be increased from the present amount of \$10,000. The court thought McCord's bond sufficiently high, and refused to increase it. The case was then continued until to-morrow morning.

THE RAILWAYS. The Atlantic and Pacific Offices to be Moved to San Diego. SAN DIEGO, Dec. 17.--[By the Western Associated Press.] It is stated on good authority that Geo. J. Sands will assume the general management of the Atlantic and Pacific Railroad and that the general offices will be removed from Albuquerque to San Diego immediately. A committee has been appointed by the Chamber of Commerce to confer with the Crocker railroad, and which will arrive here to-morrow evening, for the purpose of making overtures for an extension of the Southern Pacific to this city.

PARALLEL LINES TO SAN DIEGO. SANTA ANA, Dec. 17.--It is now definitely arranged that the Southern Pacific Railroad Company will extend their branch from Santa Ana to San Diego. Chas. Crocker and the other railroad magnates paid this city a visit yesterday for the purpose of getting information on this subject. Their surveys are now here getting a right of way. The Atchison, Topeka and Santa Fe Railway people are also getting a right of way to extend their road through to San Diego. This will give a parallel road to San Diego.

HUMBOLDT'S BAD RAP. It Proves a Dangerous Place to Many Vessels. EUREKA, Dec. 17.--[By the Western Associated Press.] There are thirty-seven vessels here, and the harbor is a dangerous place. There are 9,715,000 feet of lumber on board these vessels. The steamers Santa Maria and Humboldt are still bar-bound. The latter attempted to get out yesterday, but failed.

On Tuesday next a meeting of citizens and business men is to be held to prepare a memorial to Congress, asking the immediate improvement of the Humboldt bar. Convincing facts and figures will be given in detail.

Capt. Hansen, of the schooner Littlebonnie, and a sailor on the same vessel, were seriously injured while that vessel was crossing the bar. A wave broke over the schooner, sweeping the sailor from the wheel, and dashing the captain, who was standing by him, against the house.

A Fire-Bug's Confession. COTTONWOOD, Dec. 17.--The young woman arrested by Officer Leach and charged with robbing and setting fire to the residence of Mrs. Ludwig, has created a sensation by making a confession and implicating several well-known persons in the conspiracy against the life of Mrs. Ludwig and family. She says they promised her \$100, and a certain young man was to marry her. She is now in jail.

To be Lynched. ATLANTA (Ga.), Dec. 17.--On Thursday morning after midnight, the house of John Swilling was burned down. Inside were Mr. Swilling, his wife and three children, all of whom were burned to death. Francis Saunders was arrested and confessed that he crushed in the skulls of the sleepers, saturated the bed clothes with coal oil, applied a match and left. Citizens seized the murderer and carried him off to lynch him. It is rumored here that Saunders was tied to a tree and burned to death.

The Northern Citrus Fair. SACRAMENTO, Dec. 17.--This afternoon the Pioneers visited the fair in a body. A delegation of railroad men came also, with Stephen T. Gage at their head. During the entire afternoon the crowd was so great that the fair was scarcely room to stir in the pavilion. At a meeting held at the Board of Trade rooms, it was resolved to close the fair to-morrow night, and send the exhibits on immediately to Chicago. This evening the crowd was larger than ever before.

Schaeffer Defeats Slosson. CHICAGO, Dec. 17.--Central Music Hall was comfortably filled with lovers of the game of billiards when Slosson and Schaeffer appeared on the platform, at 8 o'clock this evening. John W. McCullough of St. Louis immediately announced that the game was 500 points, cushion caroms, for \$200 a side and gate money. At the close of the game the score stood: Schaeffer 500, Slosson 430; 119 innings.

## FOREIGN AFFAIRS.

### Russia Continues to Protest Against Prince Ferdinand.

ST. PETERSBURG, Dec. 17.--[By Cable.] The Journal de St. Petersburg says that the offer of the Bulgarian throne to Prince Ferdinand, of Saxe-Coburg Gotha, reported to have been made by the Bulgarian deputation which is now visiting European capitals, could not have been made seriously. The deputation, says the paper, "that the deputation made the offer tentatively on the part of the present dictators of Bulgaria in order to throw out the idea that they mean to continue to make a demonstration against Russia. The reckless assertion that no power would oppose the candidacy of Prince Ferdinand to the Bulgarian throne is unworthy of discussion."

A bill was introduced by Mr. Morgan to regulate the fees and salaries of United States District Attorneys in New Mexico and Arizona.

VIENNA, Dec. 17.--The Political Correspondent asserts that the Austrian government has sent a telegram to Prince Lobanoff, Russian Ambassador here, refusing to countenance the candidacy of Prince Ferdinand, of Saxe-Coburg Gotha, for the throne of Bulgaria.

Outlaws at Brentwood. BRENTWOOD (Cal.), Dec. 17.--Last night the saloon of E. J. Howell was entered and robbed of its entire contents, the till and other articles. Numerous robberies have been committed in this town of late. The National Hotel was burglarized, leaving it without a morsel of food for breakfast. An attempt was made to break into the Grand Central Hotel a few nights since, but the robbers were frightened away. Jewett, a farmer living about half a mile from town, lost several sacks of grain, evidently through the same source; also had three horses crippled by gunshots from unknown parties. Things are getting desperate and the citizens are alert. If the thieves are caught they will very likely be summarily dealt with.

Held Up by Footpads. PORTLAND (Or.), Dec. 17.--V. V. McDonald, who has been employed as a passenger agent for the Northern Pacific Railroad at Tacoma, was held up by footpads late last night in this city. McDonald was walking along near the depot, on his way to take the 8:30 a.m. train to Tacoma, when he was suddenly confronted by the gleam of a revolver. "Throw up your hands!" said one of the highwaymen. McDonald refused and began calling for help, at the same time throwing out his arm and turning aside the revolver just as the thief fired. The men then took to their heels.

A Murdered Woman's Will. CLEVELAND (O.), Dec. 17.--The will of Mrs. Jane Wheeler, the old woman recently murdered and whose husband was arrested for the crime, was offered for probate this morning. The estate is valued at from \$15,000 to \$20,000, and the greater part is left to Thomas E. Shaw, of Birmingham, Eng. The Western Reserve School of Design for Women of this city, gets property valued at \$20,000. The remainder of the estate is divided among numerous relatives. Tenants who have lived in Mrs. Wheeler's houses for more than five years get \$50 each.

Why He Disinherited his Daughter. SAN LEUIS Obispo, Dec. 17.--Isaac M. Ward and John Williams, of San Francisco, testified in the Biddle case to-day to the effect that they knew Mrs. Schow, one of the contestants. The witnesses testified to her reputation of having kept a respectable house called the "Auburn Castle" in San Francisco in 1854 and 1855. Mrs. Plummer, the contestant, it was claimed, associated with Mrs. Schow, and this is alleged as a reason for Biddle's dissatisfaction with her.

Riddled with Bullets. LITTLE ROCK (Ark.), Dec. 17.--Factor Jones and Dick Bullock, two of the four negroes, who a few days ago, murdered George Taaffe, in the Choctaw Nation, because he discovered them killing his cattle, and who were released on bail, were caught by a mob Wednesday, taken to the scene of the murder and riddled with bullets, each receiving not less than forty shots. Sandy Smith and George Moss, the other murderers, are now in jail awaiting trial.

Now in California's Rooms. SAN FRANCISCO, Dec. 17.--J. G. McCall, the general agent of the New York, Erie and Western Railroad Company, who has returned from a visit to Chicago, in speaking of his observations East, said that the section of the country known as a great bonanza of the southern part of California, and that the people knew more about Los Angeles and adjacent places than they did of San Francisco.

Fire at San Francisco. SAN FRANCISCO, Dec. 17.--The ground floor and basement of the four-story frame building, No. 917 Market street, owned by Thomas Doolin, and occupied by James Duffy & Co., carpet dealers, was visited by fire, this evening, and damaged to the extent of \$3000; fully insured. The cause of the fire is unknown.

Dropped Dead. LOUISVILLE, Dec. 17.--Gratford Washburne, son of Hon. E. B. Washburne, and secretary of the general consoling of the American London exhibition, who arrived here yesterday in the interest of the exhibition, dropped dead at the Galt House to-day of cerebral apoplexy.

Recovered Heavy Damages. ST. LOUIS, Dec. 17.--Mrs. Juliet Cunningham, who was seriously injured some time ago by jumping from a street-car of the People's line, which was in imminent danger of colliding with a railroad train at the Fourth and Poplar-street crossing, was to-day awarded \$35,000 damages.

Six Youths to be Hanged. SINKLEY (N. S. W.), Dec. 17.--Of the youths sentenced here November 29th, for criminally assaulting a 16-year-old servant girl, the Executive has decided to commute the sentence of three to imprisonment for life. Six others will be hanged.

Given Satisfaction. SAN FRANCISCO, Dec. 17.--The appointment of Judge Ross, of Los Angeles, to be United States District Judge, and J. Marion Brooks to be United States District Attorney, is enthusiastically received.

The Colton Appeal. SANTA ROSA, Dec. 17.--Plaintiff's appeal in the case of Mrs. Ellen M. Colton vs. Leland Stanford et al. was filed with the County Clerk last night.

## THE ORDER ISSUED.

### Miles to Move his Headquarters to Los Angeles.

### Outlook for Tariff Legislation at Washington.

### Thirty-five Persons Burned by an Explosion of Gas.

A Pennsylvania Town Sinking into the Earth--Shocking Story of Sin and Suffering in Detroit--Other Events Beyond the Rockies.

By Telegraph to The Times.

WASHINGTON, Dec. 17.--[By the Western Associated Press.] General army orders were issued to-day adding Southern California to the Department of Arizona, under command of Gen. Nelson A. Miles, and removing his headquarters from Prescott, Ariz., to Los Angeles.

COSENT ABOUT THE TARIFF. The tariff question is the principal topic of conversation to-night, wherever public men congregate. The well-informed on each side express grave doubts as to the result. Republicans and protection Democrats are somewhat more confident of the defeat of the motion to consider the Morrillson Bill than the revenue-reform Democrats are of its success.

STANFORD'S NEW YACHT. SAN FRANCISCO, Dec. 17.--The Examiner's Washington special says: "Senator Stanford, it is understood, is having plans prepared for a new \$600,000 yacht which he proposes having built at San Francisco next spring. The vessel will be a marked departure from shipbuilding, and will be constructed in accordance with the plans submitted by Capt. Lundborg, formerly of the Swedish navy. The yacht will be in a sense an experiment. It is expected to have a speed of twenty-four knots an hour. If she proves a success Stanford will turn her over to the government as a dispatch boat, if desired, at the original price."

TO INVESTIGATE THE FISHERY FISS. In the House to-day, Mr. Belmont of New York introduced the following bill, which was referred to the Committee on Foreign Affairs:

That the President be, and is hereby, authorized to appoint a commission to proceed to such places in the United States or elsewhere, as may be designated by the Secretary of State, to take testimony under oath or affirmation in relation to losses and injuries inflicted since the 31st of December, 1885, by the British authorities, imperial or colonial, upon citizens of the United States engaged in the fisheries on the northeast coast of British North America. This commission shall have the same powers as a commissioner of the Circuit Court, and shall be paid the same fees as are prescribed for similar services of commissioners of the Circuit Court, together with traveling expenses.

BADLY BURNED. Thirty-five Persons Burned by an Explosion of Natural Gas.

ISRAELI, Dec. 17.--[By the Western Associated Press.] The Journal's Kokomo (Ind.) special reports that gas was struck in well No. 2 at that point to-day, and in running a drill the gas was followed, and a terrific explosion followed, and thirty-five persons were more or less injured. The seriously injured are Milo Madlin, Adolphus Pickett, Hon. J. N. Loup, Mr. Ulster, Blake Keam, Marion Penros, Ira Jones, John Bailey, Walter Hockett, George Stewart, Joseph Brown and David Frazier. The force of the explosion threw everybody to the ground, which probably explains why the injured are not fatally burned.

SHAKEN UP. The Bottom of a Pennsylvania Town Suddenly Drops Out.

SHEPARDSTOWN (Pa.), Dec. 17.--[By the Western Associated Press.] Between 3 and 4 o'clock this morning, the people living along West Coal street, in the northwestern section of this borough, were aroused by a cracking noise and a swaying of houses resembling a series of shocks of earthquake. The sensation was produced by a cave-in which took down fully four acres, that section of town upon which stand upwards of fifty houses. The greatest

## Growth of the Southern Counties.

Under the heading, "Los Angeles Ahead—The County Leads All Others in the Increase of Wealth," THE TIMES of that city publishes the following telegram from San Francisco:

"The California Immigration Association held its annual meeting this afternoon. The president in his report stated that in 1881 the total assessed property in the State, real and personal, amounted to \$645,471,066, and four years later, in 1885, to \$810,467,463, an increase of \$165,000,000. The increase in taxable property has been relatively greater in Los Angeles than in any other county."

There is no question about the marvelous advance of Los Angeles county; but the statement above quoted is not true. The increase in taxable property has not been relatively greater in Los Angeles than in any other county. Both San Bernardino and San Diego counties show a much greater relative increase in taxable values during the period given. This will be made apparent by a glance at the following table of Assessors' returns from the three counties:

	1880.	1885.
Los Angeles.....	\$18,502,652	\$35,404,027
San Diego.....	4,960,469	11,707,357
San Bernardino.....	3,684,746	11,184,746

The percentage of increase (in round numbers) in San Bernardino is 67; in San Diego, 57; in Los Angeles, 45. The relative increase in population during the same period in the three counties puts San Diego in the lead:

	1880.	1885.
Los Angeles.....	33,881	72,500
San Diego.....	8,618	19,500
San Bernardino.....	7,789	17,000

Percentage of increase in San Diego, 56; San Bernardino, 54; Los Angeles, 54.

We hazard nothing in saying that the relative increase, both in wealth and population, during the year 1886, has been very considerably greater in San Diego than in any other county.

## How San Diego Grows.

A careful computation of the arrivals and departures by land and water during the year 1886, to November 30th, reveals a surprising growth in the population of San Diego. In these eleven months the excess of arrivals over departures was 10,769. If the gain in December shall (as it undoubtedly will) be equal to the average of the last three months, the total gain for the year will reach 12,082, an average of over 1000 a month. The following statement shows the arrivals, departures and gains for each month:

	1886.	Arrived.	Departed.	Gain.
January.....	1,609	801	808	801
February.....	1,429	615	814	615
March.....	1,841	1,016	825	1,016
April.....	1,840	1,016	824	1,016
May.....	1,796	1,012	784	1,012
June.....	1,912	968	944	968
July.....	2,377	1,438	939	1,438
August.....	2,242	1,438	804	1,438
September.....	2,533	1,267	1,266	1,267
October.....	2,561	1,267	1,294	1,267
November.....	2,913	1,663	1,310	1,663
Totals.....	22,968	12,199	10,769	12,199

More than half of these newcomers have settled in the interior of the county. It is well known that a large number of the settlers go to their points of location direct, without passing through this city, and of this immigration no account has been kept. The population of this county to-day cannot be far from 55,000, and it probably exceeds that number. The population of the city of San Diego is now over 12,000.

## The San Bernardino and San Diego Railway.

[San Diego Sun Dec. 15.]

Articles of incorporation of the San Bernardino and San Diego Railway Company were filed to-day in the County Clerk's office. The purpose of the incorporation is to construct, own, maintain and operate a railway for the transportation of persons and property, to be operated by steam power, from a place of junction with the railroad of the Riverside, Santa Ana and Los Angeles Railway Company at or near Anaheim, via San Juan Capistrano and Oceanside to the city of San Diego. The length of said railroad is 140 miles, and Los Angeles city is to be the place where the principal business of the corporation will be transacted. Fifty years from and after date is the time for which the corporation is to exist, and the following five directors are selected to serve the first year: George H. Bonebrake, A. W. Francisco, and M. L. Wicks, of Los Angeles; Jacob Gruendike, of San Diego, and H. L. Dove, of San Bernardino. Capital stock is \$3,000,000, of which amount \$150,000 has been subscribed. G. W. Smith subscribed \$140,000; George H. Bonebrake, \$200; M. L. Wicks, \$200; Jacob Gruendike, \$200.

## In the Crowd.

In the crowd, there she stands  
With a rose in her hands;  
Strong and straight, like the rose,  
Lifts her head; no one knows  
Of the thorn that she prick  
Her heart to the quick.

No one guesses while red  
The rose lifts its head,  
And its odor breathes  
Fills the air; but when  
With pain-palor, that  
May be eating its heart.

No one guesses or knows  
Where a proud heart bestows  
Its passion and pain,  
Its loss and its gain,  
No one guesses or knows  
What is death to the rose.

—Lord Byron in *Sea and Shore*.

## SCIENTIFIC MISCELLANY.

**Anglo-Indian Enterprise.**—Mahogany is being rapidly introduced into every part of India where it promises to thrive. The seeds sown have germinated remarkably well, a single pound planted in greenhouses in the southern districts having yielded between 3000 and 4000 plants. It is thought to be quite probable that the world may some day look to India instead of to America for its mahogany as well as for its quinine. The Eastern product of the latter has already become so extensive and of such superior quality that the cinchona bark exports of the United States of Colombia are said to have diminished 50 per cent. within five years.

**The Left-Handed.**—A new work by Dr. Louis Jobert states that not only left-handed race has ever been discovered, although 70 per cent. of the inhabitants of the Penjab use the left hand, by preference, as do also the larger part of the Hottentots and bushmen of South Africa. In a study of criminals, Dr. Marro has found that from 14 to 22 per cent. of convicts were left-handed, the highest ratio among people of all classes being only nine in the hundred.

Dyspepsia, palpitation of the heart and nervousness are among the disorders attributed to the use of strong tea in excess, but the most remarkable effect seems to have been observed in the case of a young girl reported by an English medical authority to have had attacks exactly resembling delirium tremens as a result of a habit of chewing tea-leaves.

France is credited with having 2000 medicines in its Pharmacopoeia; Spain and Belgium, 1500; Russia, 1080; Greece and Switzerland, 1040; the United States, 1010; Great Britain, 815; Sweden, 740; Denmark, 720; Holland, 665; Germany, 608; Austria, 599; Hungary and Roumania, 545; and Norway, 530.

A communication to the French Academy of Sciences, by Mons. C. V. Zenger, has called attention to the simultaneous occurrence of brilliant auroras and meteoric showers, suggesting a probable connection.

**The Unexplained in Geology.**—While reaching so deeply into the origin of things, reflects Dana, geology leaves wholly unexplained the creation of matter, life and spirit, and that spiritual which pervades the whole history like a prophecy, becoming more and more clearly pronounced with the progressing ages, and having its consummation and fulfillment in man. It gives no cause for the arrangement of the continents together in one hemisphere and mainly in the same temperate zone, or their situation about the narrow Atlantic, with the barrier mountains in the remote west of America and in the remote east of Europe and Asia, thus gathering the civilized world into one vast arena; it does not account for the oceans having, in extent and depth, that exact relation to the land which, under all the changes, allowed of submergence and emergence, through small oscillations of the crust, and hence permitted the spreading out of sandstones and shales by the waves and currents, the building up of limestone through animal life, and the accumulation of coals through the growth of plants, and all in numberless alternations; nor for the various adaptations of the system of plants and animals to the wants of the species in that system. Through the whole history of the globe there was a shaping, provisioning and exalting of the earth, with reference to a being of mind, to be sustained, educated, exalted. This is the spiritual element in geological history, for which attraction, water and fire have no explanation.

**Theory of Sun-Spots.**—By means of a sensitive thermopile and a perforated disk of cardboard, Prof. Spörer, a German physicist, has proven that extraluminous patches on the solar disk are more intensely heated than the rest, and that the dark spots are cooler than the average surface. The hottest regions must develop ascending gas currents, to which descents of cooler gas-masses must necessarily correspond. These descending gases must generate the dark spots, and the ascending produce the prominences which are observed to shoot up to enormous heights. This theory is confirmed by the fact that sun-spots always form on extrabright parts of the sun.

**An Insect Tramp.**—A supposed house-fly parasite (*Hypopus muscarum*) has been found by a French naturalist, P. Megnin, to be in reality no parasite preying upon the fly-mite, but simply the common cheese-mite (*Tyroglyphus* sp.) availing itself of the first means of transportation to new sources of food-supply. The creature, with a remarkable power of adaptation to environment, becomes greatly changed on attaching itself to the fly or other animal, but assumes its original form, and multiplies rapidly on reaching suitable feeding grounds. This discovery explains how fresh cheese can become infected with mites even when carefully placed on a shelf away from all suspected sources of contamination.

**The Blood's Mingle.**—In a recent lecture before a London institution, Dr. B. W. Richardson stated that the work of the heart in a healthy man is equivalent to the feat of raising 5-15 tons 1 foot per hour, or 125 tons in twenty-four hours. The use of eight ounces of alcohol causes the heart's work to show an excess of 24 foot-tons. Illustrating this powerful engine's performance by a new calculation, he assumed that the blood is thrown out by an average of sixty-nine strokes per minute, and at the force of 9 feet to each stroke, which would give the mileage of the blood through the body as 207 yards per minute, 7 miles per hour, 168 miles per day, 61,320 miles per year, or 5,150,880 miles in a lifetime of eighty-four years. In the same long life the great journey of the blood would be the result of the grand total of 2,869,776,000 heart-beats.

During the season of 1886, the United States Fish Commission has distributed over 90,000 young shad in the various streams and waters of the country, at an expense of less than \$20,000. As less than 6,000,000 shad are taken for the market in a season, fifteen young fish were put into the water for every old one removed.

The cave animals of North America, according to Prof. A. S. Packard, comprise a total of 172 species of blind creatures, nearly all of which are mostly white in color.

## THE DUKE OF MARLBOROUGH.

The Hero of the Colin Campbell Scandal.

The Colin Campbell scandal, which is creating so much excitement in England, is becoming one of dread and fear to some of the aristocratic titled parties, who apprehend being drawn into the case, and many of these are leaving England until the case is tried, although measures have been taken to avoid publicity as much as possible. The high standing of the persons implicated in the case makes it a sort of *bon mot* for the interested public, and there seems to be no way of curbing the curiosity of the news and gossip gatherers. The Duke of Marlborough, who is implicated in the case, seems to take his notoriety with a *sans froid* that inspires much confidence to others also implicated in the trial. The Duke of Marlborough is quite a young man and is heir to immense wealth and estates in both England and Scotland. His ancestors have held high positions in the government and have rendered good service to England both before and after the time of the Pretender, in 1715. The present Duke of Marlborough numbers among the most influential subjects of Queen Victoria's court, and to his own favor of court is added that of Lady Marlborough. The Duke of Marlborough and the man of Woodstock (the latter granted to the family in 1703) are his chief estates.

The curative properties of which are famous, and the baths are free to everybody.

## A PROPOSITION FOR BUILDING A RAILROAD.

Is now before the people. Railroad surveys are on foot. Artesian water is coming in from pipes to a 300-acre tract of mesa land, suitable for most all semi-tropical fruits.

## A \$12,000 BRICK SCHOOL HOUSE.

Graded schools, churches, brick blocks. This place has made, as we believe the growth of any place in Southern California, and has made the most improved colony in California in the last three years. Its altitude is 1400 feet above the sea. In 1885 there were fifty persons, and in 1886 is about twelve hundred. No other valley in California has so many advantages. Come and see for yourself and be convinced.

## We, the undersigned citizens, agree and guarantee to pay the expenses of any person or persons from any point in California to San Jacinto and return, if everything in this statement is true.
